TSD Engineering PLC

I. Activities of TSD

1. ESTABLISHMENT

Realizing the need for expanding the technical service in Ethiopia Particularly by the private sector, a group of interested and concerned Ethiopian investors and professionals commissioned a feasibility study on the establishment of private Technical Service that will cater for the growing need of such services in Ethiopia. The outcome of the study sufficiently indicated that the venture is profitable and worth considering with substantial financial and Economic benefits both to the owners and to the Government at large.

Based on the outcome of the feasibility study and in the accordance with the proclamation for establishing such a business, Technical service Development Engineering (TSD) was established in 1996 and fully licensed to carry out Electro-mechanical installation work under category A through license number 1/00629//91 dated November, 1998. The company was also licensed to carry out general import and foreign trade auxiliary under license numbers 017569/91 and 009715/91, respectively.
